## 2 ABSTRACT

For full guidelines regarding your manuscript please refer to [Author Guidelines](#).

As a primary goal, the abstract should render the general significance and conceptual advance of the work clearly accessible to a broad readership. References should not be cited in the abstract. Leave the Abstract empty if your article does not require one, please see [Summary Table](#) for details according to article type.

**Keywords:** template, demo

## 1 INTRODUCTION

For Original Research Articles (1), Clinical Trial Articles (2), and Technology Reports (3), the introduction should be succinct, with no subheadings (4). For Case Reports the Introduction should include symptoms at presentation (5), physical exams and lab results (6).

## 2 ARTICLE TYPES

For requirements for a specific article type please refer to the Article Types on any Frontiers journal page. Please also refer to [Author Guidelines](#) for further information on how to organize your manuscript in the required sections or their equivalents for your field

For Original Research articles, please note that the Material and Methods section can be placed in any of the following ways: before Results, before Discussion or after Discussion.

## 3 MANUSCRIPT FORMATTING

### 3.1 Heading Levels

There are 5 heading levels

## 3.2 Level 2

### 3.2.1 Level 3

#### 3.2.1.1 Level 4

##### 3.2.1.1.1 Level 5

## 3.3 Equations

Equations should be inserted in editable format from the equation editor.

$$\sum x + y = Z \quad (1)$$

## 3.4 Figures

Frontiers requires figures to be submitted individually, in the same order as they are referred to in the manuscript. Figures will then be automatically embedded at the bottom of the submitted manuscript. Kindly ensure that each table and figure is mentioned in the text and in numerical order. Figures must be of sufficient resolution for publication [see here for examples and minimum requirements](#). Figures which are not according to the guidelines will cause substantial delay during the production process. Please see [here](#) for full figure guidelines. Cite figures as Figure 1 and Figure 2.

### 3.4.1 Permission to Reuse and Copyright

Figures, tables, and images will be published under a Creative Commons CC-BY licence and permission must be obtained for use of copyrighted material from other sources (including re-published/adapted/modified/partial figures and images from the internet). It is the responsibility of the authors to acquire the licenses, to follow any citation instructions requested by third-party rights holders, and cover any supplementary charges.

## 3.5 Tables

Tables should be inserted at the end of the manuscript. Please build your table directly in LaTeX. Tables provided as jpeg/tiff files will not be accepted. Please note that very large tables (covering several pages) cannot be included in the final PDF for reasons of space. These tables will be published as [Supplementary Material](#) on the online article page at the time of acceptance. The author will be notified during the typesetting of the final article if this is the case.

## 3.6 International Phonetic Alphabet

To include international phonetic alphabet (IPA) symbols, please include the following functions: Under useful packages, include: `\usepackage{tipa}` In the main text, when inputting symbols, use the following format: `\text{symbolname}` e.g. `\textgamma`. This may require some editing of the template to accomplish.

## 4 NOMENCLATURE

### 4.1 Resource Identification Initiative

To take part in the Resource Identification Initiative, please use the corresponding catalog number and RRID in your current manuscript. For more information about the project and for steps on how to search for an RRID, please click [here](#).

### 4.2 Life Science Identifiers

Life Science Identifiers (LSIDs) for ZOOBANK registered names or nomenclatural acts should be listed in the manuscript before the keywords. For more information on LSIDs please see [Inclusion of Zoological Nomenclature](#) section of the guidelines.

## 5 ADDITIONAL REQUIREMENTS

For additional requirements for specific article types and further information please refer to [Author Guidelines](#).

## CONFLICT OF INTEREST STATEMENT

All financial, commercial or other relationships that might be perceived by the academic community as representing a potential conflict of interest must be disclosed. If no such relationship exists, authors will be asked to confirm the following statement:

The authors declare that the research was conducted in the absence of any commercial or financial relationships that could be construed as a potential conflict of interest.

## AUTHOR CONTRIBUTIONS

The Author Contributions section is mandatory for all articles, including articles by sole authors. If an appropriate statement is not provided on submission, a standard one will be inserted during the production process. The Author Contributions statement must describe the contributions of individual authors referred to by their initials and, in doing so, all authors agree to be accountable for the content of the work. Please see [here](#) for full authorship criteria.

## FUNDING

Details of all funding sources should be provided, including grant numbers if applicable. Please ensure to add all necessary funding information, as after publication this is no longer possible.

## ACKNOWLEDGMENTS

This is a short text to acknowledge the contributions of specific colleagues, institutions, or agencies that aided the efforts of the authors.

## SUPPLEMENTAL DATA

75 [Supplementary Material](#) should be uploaded separately on submission, if there are Supplementary  
76 Figures, please include the caption in the same file as the figure. LaTeX Supplementary Material  
77 templates can be found in the Frontiers LaTeX folder.

## DATA AVAILABILITY STATEMENT

78 The datasets [GENERATED/ANALYZED] for this study can be found in the [NAME OF  
79 REPOSITORY] [LINK].

80 Many Frontiers journals use the numbered referencing system, to find the style and resources for  
81 the journal you are submitting to click [here](#).

82 1.Name C, Surname D, LastName F. The title of the work. Name1 E, Name2 E, editors, *The title*  
83 *of the conference proceedings* (The name of the publisher) (1996), 41–50.

84 2.LastName1 A, LastName2 A, LastName3 A. Article title. *Frontiers in Neuroscience* **30** (2013)  
85 10127–10134. doi:10.3389/fnins.2013.12345.

86 3.Surname1 H. *The title of the work* (Patent country: Patent number) (2010).

87 4.Name A. *The title of the work* (The city: The name of the publisher) (1993).

88 5.Surname B. The title of the work. Name E, editor, *The title of the book* (The city: The name of  
89 the publisher) (2002), 201–213.

90 6.[Dataset] LastName1 A, LastName2 A, LastName3 A. Data title (2011). doi:10.000/55555.

## FIGURE CAPTIONS

91 Please be aware that for original research articles we only permit a combined number of 15 figures  
92 and tables, one figure with multiple subfigures will count as only one figure. Use this if adding the  
93 figures directly in the manuscript, if so, please remember to also upload the files when submitting  
94 your article There is no need for adding the file termination, as long as you indicate where the file is  
95 saved. In the examples below the files (logo1.eps and logos.eps) are in the Frontiers LaTeX folder If  
96 using \*.tif files convert them to .jpg or .png

97 logo1.eps is required in the path in order to correctly compile front page header.

98 You can include figures using a code fence

**Figure 1.** Enter the caption for your figure here. Repeat as necessary for each of your figures

99 Or through pandoc syntax

100 Note that this template does not support subcaptions and corresponding references.

**Figure 2.** This is Figure2

101 If you don't add the figures in the LaTeX files, please upload them when submitting the article.  
102 Frontiers will add the figures at the end of the provisional pdf automatically The use of LaTeX  
103 coding to draw Diagrams/Figures/Structures should be avoided. They should be external callouts  
104 including graphics.
